

CINDY ARBELAEZ V.

FULL-STACK DEVELOPER

ABOUT ME

FULL STACK DEVELOPER, WHO IS ALWAYS EXCITED TO BUILD AND LEARN. I CONSIDER MYSELF A PROACTIVE PERSON, WITH GREAT ATTENTION TO SMALL DETAILS AND THE BIG PICTURE TOO, A TASTE FOR GOOD DESIGN AND DEFINITELY A TEAM PLAYER.

RECENT WEB PROJECTS

IBUY MARKETPLACE

Full stack project: React, Redux, Node.js, Express.js

<https://ibuy.netlify.app/>

- Built a fictional Marketplace App from Scratch. For the backend side, I created the REST APIs with Express and use these endpoints in the React frontend. For the front end, I used Redux for state management, Firebase to handle product and shop images, and followed the best practices to implement Authentication using JWT.

THE ONE WAY JOURNEY

Headless website: Next.js, GraphCMS, Css Modules

<https://www.theonewayjourney.com/>

- I took an existing WordPress blog and turned it into a headless CMS with Next.js on the front-end and GraphCMS as a back-end-only management system.

EXPERIENCE

DIGITAL MARKETING ASSISTANT

Optin Solutions | 2018-2022

- Create Facebook Business Manager, Create Facebook Business Page, Resolve any Issues, Fix Up Restrictions, Event Tracking Setup, Domain Setup, Developer App Setup, and Website Integration.
